

The Whisky Rebellion Tasting Themes

2017 Information and Costing

Whisky / Gin / Tequila (Rum & Brandy coming soon)

The images you see below are the tasting mats - these will be placed on the table in front of each person with the spirits placed on top of it. They are colourful and fun and lend to the theme chosen. You can see examples of table setups from previous tastings here: <http://whiskyrebels.com/gallery/tasting-gallery/>

The presentation is in the ballpark of an hour long and we keep it conversational and fun while still being informative and educational. We only use top quality spirits that we are passionate about ourselves, and these are more often than not boutique expressions.

The prices below include everything: The rental of printed artistic tasting mats, crystal glassware, a taste pairing, other tasting paraphernalia like pipettes and so on, our presentation and time, travel (within Johannesburg), setup, strike, and of course the whiskies themselves. We come to your venue of choice with everything, all that we require is the table space on which to place the mats and glasses etc.
